

Navigating Métis Community Resources

Navigating Métis Community Resources (NMCR) works to create connections between Métis Citizens and community resources to foster culture, support collaboration, and provide well-rounded supports to Métis families.

This referral-based program works closely with Family Resource Networks across the province to connect Métis families to services within their area.

What we do

- Provide a main point of connection for Alberta service providers to refer Métis families to the Otipemisiwak Métis Government and affiliates' programs and services.
- Through our Métis Cultural Awareness Training, educate, inform, and work alongside Alberta service providers working with Métis children, youth, and families.
- Connect with community resource agencies to stay informed on programs and services that will best serve the needs of the Métis people within Alberta.

Please contact us for more information.
