

### **Age 7–10: *What do you love about being Métis?***

The infinity symbol is found on the Métis flag. It helps me remember my Métis culture and I will always be Métis. The sash colours represent the water we drink, the air we breathe, and the sun that gives us life. This art project was really fun and it gave me time to really think about and talk about Métis culture. I think it was a cool idea to mix together the ideas of the infinity shape and sash colours.
