Programs and Services

**Sustainable Development and Industry Relations**

The Métis Nation of Alberta (MNA) Provincial Office has created an Industry Relations Unit to ensure that the Métis community, represented by the MNA, is informed about proposed resource development projects and is included in government and industry’s consultation processes.

**Children and Youth**

The Children and Youth Sector of the MNA ensures that the rights and dignity of Métis children, and families involved with the children intervention system, are honoured. It also works to advocate and support the needs of the Métis children and families to ensure that cultural identity and connections are maintained. This is done through policy and planning sessions, which provide Métis-focused knowledge and support to human services in:

- Ministerial meetings;
- Conferences;
- Being an active member on the Aboriginal Cultural Competency Framework and Training Initiative Advisory Committee; and
- Chartering Métis Steering Committee meetings.

Also assisting with the Children and Youth sector is the Métis Resource Worker, who works with Child and Family Services (CFS) to provide culturally respectful services to the CFS and the Métis Child, Family and Support Network.

**Health and Wellness**

The Métis Nation of Alberta (MNA) understands the importance of health when trying to maintain a strong and motivated community. Our report *Health Status of Métis Population in Alberta* provides high quality evidence of the disproportionate disease and injury burden that Métis Albertans experience. Our current initiatives include:

- **MNA Public Health Surveillance Program:** We have released three new health reports on Cancer, COPD and Injury. Currently, we are researching diabetes, hypertension and cardiovascular disease. Our future projects include: musculoskeletal disorders, and dementia.
- **Métis Health Clinic:** Currently the MNA is working with Alberta Health on the creation of a Métis health clinic.

**Registry and Genealogy**

Becoming a member of the Métis Nation of Alberta is an important part of preserving one’s culture and history. Our Genealogy Research Centre has an extensive collection of resources which can help interested applicants complete their family trees by researching the individuals ancestry.
