

“Life is busy, so I’m here to make it a little easier”

Christine wanted a career she was passionate about. That had to include helping people. What better way to help than providing the gift of sight.

With a keen eye for fashion and love for the latest styles and hottest trends, she created a MOBILE Eye Care company called Glasses To Go, offering Optical Services at the convenience of the customer’s location. Knowing business professionals and stay at home parents are busy and need convenience, style and choices. Christine’s company Glasses To Go comes to you with the equipment needed with over 300 choices of unique, high fashion, classic & contemporary frames to choose from.

Eyewear has become a fashion statement. Glasses are now like a piece of jewelry and have progressed from function to style. Optical needs are different for everyone, during private appointments, Christine takes the time to learn about your lifestyle and occupation and helps you find a pair of glasses that best fit your needs and fashion sense. Christine is not an online shop, she wants to take the time to properly fit and measure for the perfect pair of new eyeglasses.

An award winning Business Woman, Christine proudly gives back. Several years ago she joined a Medical Mission operating an Eye Clinic in Haiti and has made several trips to help the less fortunate. Christine claims - *“Helping them brings me an overwhelming sense of joy!”*

Glasses To Go is now the leading Mobile Eye Glass company in Canada, serving the Edmonton and area. If you need new glasses reach out to Christine and she will gladly come to you.
